

## Animal Heads and Other Items for Rent

Although many other animal heads and costumes were borrowed from other theater groups and schools for the production of *Children of Eden*, the following pairs of animal heads were made by the Lichtenberg Family for Lakeland Players: African Elephants, Mandrills (Apes), Unicorns, Butterflies, Barn Owls, Snow Owls, and Toucans. The sizes of these heads are life-like, i.e., the elephant heads exceed 3 feet in height and mandrill heads are nearly 18 inches in height. A yardstick is included in most photos to demonstrate the sizes of each head.
